Veteran Events will be handicapped according to ARA at start

Junior B events will be offered in 1X only if sufficient entries

Notes

1. In line with a lot of regattas we are trying a division approach to try and allow competitors to compete in a number of events and make scheduling racing easier. As we are a tidal river and have limited racing time we are only offering limited events but hope that all competitors will be able to find 2-3 events that they can compete in.
2. There is to be no doubling up within a division but as above competitors are encouraged to enter a class in each division eg A competitor entering OIM2 1X in division 1 can enter OS 1X in division 2 and possibly a mixed 2X in division 3 or a junior can enter 1x in a division a 2x in a division and a 4X in another division to further encourage this a discount is given to individual competitors for multiple entries as per grid
3. Sharing of equipment and competitors including coxswains must be notified at time of entry. We understand that competitors will need to share equipment and coxes but would ask when possible that clubs ensure that they have enough equipment to cover their entries to aid smooth running of regatta
4. All cheques (payable to Berwick Rowing club) must be sent to David Cairns to arrive by Saturday 13th June.
5. We reserve the right to upgrade competitors if insufficient entries in their class so please state status/age group of crews and state clearly if **NOT** prepared to compete in a higher status.
6. Please note that entry fees will not be refunded after the draw except if there is no event or upgrade being available that a crew can compete in if a competitor decides to scratch then they will be liable for their fee
7. If any status changes occur between entry and draw please notify regatta secretary ASAP so changes can be accommodated
8. In the event of a cancellation the regatta will endeavour to refund all entry fees after taking in to account all unavoidable costs
9. The draw will be published ASAP after complete and any problems should be notified ASAP
10. This regatta will be run under the A.R.A. rules of racing.
